- efficient and correct use of available funds
- complete and sufficient audit trails in all institutions
- effective financial control and audits of approved projects

These tasks shall be performed as described below.

**A. Monitoring and audits arranged by the National Focal Point**

In accordance with Article 6.2 of the Rules and Procedures and as listed above, the National Focal Point is responsible for the financial control and audit of approved projects.

In order to perform the necessary monitoring and audit functions, the National Focal Point will make an open call to appoint an international consultancy company which will...

the projects’ progress.

In addition to monitoring and audit performed as described above, the IGAE

The Supreme Audit Institution of Spain, the National Audit Office (Tribunal de
Cuentas) has the right to carry out audits of projects.

**B. Disbursement arrangements by the National Focal Point/Paying Authority**

In order to increase the quality of operations and ensure good business practices, the
financial management and control, including the Paying Authority, are separated from
other functions of the National Focal Point. This is done by entrusting the functions of a
Paying Authority to a different Department within the General Directorate of European
Funds. This Department is called the Control and Paying Department.

The Control and Paying Department manages all operations related to financial
transactions. It also fulfils the tasks of developing, implementing and maintaining the
procedures concerning financial management and control.

**C. Additional implementing structures**

The National Focal Point remains responsible to the FMC for the correct
implementation of project selection and project monitoring.

C.1. Procedure for the selection of projects

The National Focal Point will implement the following procedure for the selection of
project proposals that will allow for a broad participation in the access of the funds by
the different institutions/regions of the country.

The minimum amount of the cost of each programme/project will generally be limited to
3 million euros. This minimum amount would be lower in the case of NGOs, due to their
lower financial capacity. To the extent possible, priority will be given to
programmes/projects to be implemented in the least prosperous regions of Spain, that is
those regions where per capita income is below 75% of the EU average (the so-called
Objective 1 regions).

The following public and private institutions will be asked to submit to the General
Directorate of European Funds a preliminary executive summary of a limited number of
programmes and project ideas:
1. Each of the following line ministries, according to the prioritised areas to be included in Annex B of the MoU, will be asked to submit summaries of three programmes/projects ideas:

   Ministry of Environment
   Ministry of Labour and Human Resources
   Ministry responsible for Public Works and Transportation
   Ministry of Culture
   Ministry of Education and Science
   Ministry of Justice
   Ministry of Industry, Tourism and Commerce

2. The 17 Regional Communities and the Autonomous Towns of Ceuta and Melilla will each be asked to submit summaries of three programmes/projects ideas.

3. The Association of Municipalities, FEMP, which includes the City Councils, will be asked to submit summaries of fifteen programmes/projects.

4. The four following NGOs, devoted to environmental protection and which have a reputed management capacity, will be asked, through the Ministry of Environment, to send us summaries of three programmes/projects ideas for a maximum total amount of 3 million euros:

   Amigos de la Tierra
   ADENA
   Ecologistas en Acción
   Greenpeace

After receiving the aforementioned programme/project proposals, and considering the total amount of funds available for commitment, the National Focal Point will select those considered most appropriate according to the objectives of the EEA Financial Mechanism.

C.2. Monitoring Committee

In order to secure an open and transparent implementation of the EEA Financial Mechanism, a Monitoring Committee will assist the National Focal Point in the monitoring and the follow-up of projects. The Monitoring Committee will be broad-based, comprised of members from the line ministries, representatives of regional and local administrations, social and economic partners, NGOs and final beneficiaries, for which projects have been approved by the Financial Mechanism Committee.

In particular, the Monitoring Committee’s responsibilities include, but are not limited to, the following:

- review overall progress and financial reports
• periodical review of the project progress
• examine and approve periodical reports on the use of financial resources
• ensure the compliance with the rules and regulations and with the terms and conditions of the grants.

D. Application procedure

D.1. Before the General Directorate of European Funds submits the application to the FMO
Once the National Focal Point has selected which programme/project ideas are suitable for support from the EEA Financial Mechanism (see C.1. Procedure for the selection of projects), the applicants under C.1 above and applicants for specific types of grant assistance referred to in Article 8 of the Memorandum of Understanding will be asked to present their formal applications for programmes, projects, or other specific forms of grant assistance. After these are received and reviewed by the National Focal Point, the applicants will be notified about approval or rejection of their applications by the National Focal Point. The National Focal Point will submit the approved applications to the FMO.

If the National Focal Point finds that additional information is needed from the applicant, it will notify the applicant and explain what corrections or additions are required. If the National Focal Point is satisfied that the application is in an appropriate format, in accordance with Protocol 38a and is in furtherance of the overall goal of the EEA Financial Mechanism, it may forward the application to the FMO.

D.2. After the National Focal Point submits the application to the FMO
The National Focal Point will notify the applicant of the project’s approval or rejection by the FMC. If the application is approved, the National Focal Point will, of behalf of the Kingdom of Spain, sign a Grant Agreement with the FMC.
