The Programme Operator is the Ministry of Energy. The Norwegian Water Resources and Energy Directorate (NVE) and the National Energy Authority of Iceland (OS) are the Donor Programme Partners (DPPs).

The programme objective, “Less carbon intensive energy and increased security of supply”, will be attained through three outcomes:

- Outcome 1: “Increased renewable energy production”.

The outcome shall be supported through two pre-defined projects (PDP) “Feasibility study on utilizing the hydro power potential in existing water supply systems and upgrading potential for existing small hydro power plants in water supply systems” (PDP no. 1) and “System for Forecasts, Control and Management of HPP Generation and Dams Condition” (PDP no. 2), two calls for proposals (calls no. 1 and 2) and one small grant scheme (SGS no. 1). Call no. 1 will support projects on hydropower; call no. 2 will support projects on geothermal energy. SGS no. 1 will support projects on training for geothermal energy.

- Outcome 2: “Improved energy efficiency in buildings, industry and municipalities”

The outcome shall be supported through three calls for proposals (calls no. 3, 4 and 5). Call no. 3 will support projects on energy efficiency in buildings; call no. 4 will support projects on energy efficiency in industry; and call no. 5 will support projects on rehabilitation and modernisation of municipal infrastructure.

The Chairman of the Selection Committee shall submit a report, including the list of the recommended projects, together with a reserve list and the list of rejected project proposals and the reason for their rejection, to the Programme Operator.

The Programme Operator shall verify that the selection process has been conducted in accordance with the Regulation and that the recommendations from the Selection Committee comply with the rules and objectives of the programme. Following such verification, the Programme Operator shall, based on the decision of the Selection Committee, make a decision on which projects shall be supported. The Programme Operator may return the report to the Selection Committee requesting a repetition of the selection process in case of a violation of the procedure that can be remedied or not approve the report when there has been a serious violation of the procedure. The Programme Operator may modify the decision of the Selection Committee in justified cases.

The process set out in this Article shall apply to all calls for project proposals, including the SGS, under this programme.
