The updated baseline value shall be agreed upon through a modification of the programme agreement.

4. For the outcome 4 indicator "Share of population living in areas with enhanced capacity to reduce emissions and prepare for extreme weather events", where the target value is "to be determined" (TBD), the Programme Operator shall submit to the FMO for approval the target value, together with a description of the data collection method used, no later than three months after the finalisation of the selection of projects under the call for proposals within this outcome. 4.2 Selection procedures:

The project evaluation and award of grants shall be in accordance with Article 7.4 of the Regulation.

The Programme Operator shall be responsible for project evaluation and for the award of grants.

The Programme Operator shall appoint an Evaluation and Selection Committee (ESC) which shall carry out the assessment, ranking and selection of project proposals. The ESC shall consist of a chairman and a secretary (representatives of the Programme Operator) without voting rights and at least three voting members, depending on the number of submitted project proposals. At least one of the voting members shall be external to the Programme Operator. The DPP, the FMC and the National Focal Point shall be invited to participate in the ESC meetings as observers.

Voting members of the ESC that come from the Programme Operator or external experts nominated by the Programme Operator shall review project proposals for compliance with administrative and eligibility criteria. Applicants whose project proposals are rejected at this stage may appeal this decision.

Each project proposal that meets the administrative and eligibility criteria shall be reviewed by two ESC members with voting rights, at least one of which shall be external to the Programme Operator. These ESC members shall separately score the project according to the selection criteria published in the call for proposals. For the purposes of ranking the projects, the average of the scores awarded by the experts shall be used. If the difference between the scores given by the two members is more than 20% of the higher score, a third expert (member of the ESC with voting rights) shall be commissioned by the Chairman of the ESC to score the project. In such cases the average score of the two closest scores shall be used for the ranking of the projects. Assistant evaluators may be used to assess all or part of the project proposals in the case of complex technical projects and provide an expert opinion. The assistant evaluators will not score the project proposals.

Following the technical evaluation of project proposals, all members, including the observers, of the ESC shall meet to review the ranked list of project proposals. The ESC may modify the ranking of the projects in justified cases. The justification for the modifications shall be detailed in the minutes of the meeting of the ESC. If such a modification results in a project’s rejection, the affected applicant shall be informed in writing about the justification for the modification. The ESC shall submit a report, including the list of the recommended projects, together with a reserve list and the list of rejected project proposals and the reason for their rejection, to the Programme Operator.

The Programme Operator shall verify that the selection process has been conducted in accordance with the Regulation and that grant award decisions comply with the rules and objectives of the programme. Following such verification, the Programme Operator shall make a decision on which projects shall be supported on the basis of the ranking list approved by the ESC. The Programme Operator may approve the report from the ESC, return the report to the ESC requesting a repetition of the evaluation process

in case of a violation of the procedure that can be remedied or not approve the report when there has been a serious violation of the procedure.

The Programme Operator shall notify the applicants about the results of the selection process within a reasonable time and publicise the results.

4.3 *Project grant rate:*

Grants to all projects from the programme may be up to 100% of total eligible expenditure of the project. In the case of projects where the project promoter is an NGO or a social partner, as defined in Article 1.6 of the Regulation, the project grant rate may be up to 90% of total eligible expenditure of the project. The project grant rate shall in all cases be set at a level that complies with the State Aid rules in force and takes into account any and all other forms of public support granted to projects.
