Chapter 4: Eligibility of expenditures
4.1 General principles on the eligibility of costs in projects
1. The principles set forth in this Article shall apply mutatis mutandis to all eligible expenditures unless otherwise stated in this Agreement.
2. Eligible expenditures of projects are those actually incurred by the project promoter or the project partner, which meet the following criteria:
   a) they are incurred between the first and final dates of eligibility of a project as specified in the project contract;
   b) they are connected with the subject of the project contract and they are indicated in the detailed budget of the project;
c) they are proportionate and necessary for the implementation of the project;
d) they are used for the sole purpose of achieving the objective of the project and its expected outcome(s), in a manner consistent with the principles of economy, efficiency and effectiveness;
e) they are identifiable and verifiable, in particular through being recorded in the accounting records of the project promoter and determined according to the applicable accounting standards and generally accepted accounting principles; and
f) they comply with the requirements of applicable tax and social legislation.

3. Expenditures are considered to have been incurred when the cost has been invoiced, paid and the subject matter delivered (in case of goods) or performed (in case of services and works). Exceptionally, costs in respect of which an invoice has been issued in the final month of eligibility are also deemed to be incurred within the dates of eligibility if the costs are paid within 30 days of the final date of eligibility. Overheads and depreciation of equipment are considered to have been incurred when they are recorded on the accounts of the project promoter and/or project partner.

4. The project promoter’s internal accounting and auditing procedures must permit direct reconciliation of the expenditures and revenue declared in respect of the project with the corresponding accounting statements and supporting documents.

4.2 Direct expenditures
1. The eligible direct expenditures for a project are those expenditures which are identified by the project promoter and/or the project partner, in accordance with their accounting principles and usual internal rules, as specific expenditures directly linked to the implementation of the project and which can therefore be booked to it directly. The following direct expenditures are eligible provided that they satisfy the criteria set out in Article 4.1:

a) the cost of staff assigned to the project, comprising actual salaries plus social security charges and other statutory costs included in the remuneration, provided that this corresponds to the project promoter’s and project partner’s usual policy on remuneration;
b) travel and subsistence allowances for staff and volunteers taking part in the project, provided that they are in line with the project promoter’s and project partner’s usual practices on travel costs;
c) cost of new or second hand equipment provided that it is depreciated in accordance with generally accepted accounting principles applicable to the project promoter and generally accepted for items of the same kind. Only the portion of the depreciation corresponding to the duration of the project and the rate of actual use for the purposes of the project may be taken into account by the Fund Operator. In case the Fund Operator determines that the equipment is an integral and necessary component for achieving the outcomes of the project, the entire purchase price of that equipment may be eligible;
d) costs of consumables and supplies, provided that they are identifiable and assigned to the project;
e) costs entailed by other contracts awarded by a project promoter for the purposes of carrying out the project, provided that the awarding complies with the applicable rules on public procurement; and
f) costs arising directly from requirements imposed by the project contract for each project.

2. Where the entire purchase price of equipment is eligible in accordance with point (c) of paragraph 1, the Fund Operator shall ensure that the project promoter:

a) keeps the equipment in its ownership for a period of at least five years following the completion of the project and continues to use the equipment for the benefit of the overall objectives of the project for the same period;
b) keeps the equipment properly insured against losses such as fire, theft or other normally insurable incidents both during project implementation and for at least five years following the completion of the project; and
c) sets aside appropriate resources for the maintenance of the equipment for at least five years following the completion of the project.

The specific means for the implementation of this obligation shall be specified in the project contract. The Fund Operator may release any project promoter from the above obligations with respect to any specifically identified equipment where the Fund Operator is satisfied that, having regard to all relevant circumstances, continued use of that equipment for the overall objectives of the project would serve no useful economic purpose.

2. The provisions in this Article shall apply mutatis mutandis to all eligible expenditures unless otherwise stated in this Agreement.
4.3 Standard scales of unit costs
1. The project grant may take the form of standard scales of unit costs. In such case the amount shall be established in one of the following ways:
   (a) in accordance with the rules for application of corresponding scales of unit costs applicable in European Union policies for similar types of project and entities involved;
   (b) in accordance with the rules for application of corresponding scales of unit costs applied under schemes for grants funded entirely by the Beneficiary State where the Project Promoter or partner is located, or the Donor State where the donor project partner is located, for similar types of project and entities involved.
2. The use of standard scales of unit costs, their amount and the way they are established shall be determined in the project contract. The use of standard scales of unit costs, their amount and the way they are calculated for a project partner shall be stipulated in the partnership agreement between the Project Promoter and the project partner.
3. The provisions of this article shall apply mutatis mutandis to all eligible expenditures unless otherwise explicitly stated in this Agreement.

4.4 Indirect costs
1. Indirect costs are all eligible costs that cannot be identified by the project promoter and/or the project partner as being directly attributed to the project but which can be identified and justified by its accounting system as being incurred in direct relationship with the eligible direct costs attributed to the project. They may not include any eligible direct costs. Indirect costs of the project shall represent a fair apportionment of the overall overheads of the project promoter or project partner. They may be identified according to either of the following methods:
   a) based on actual indirect costs for those project promoters and project partners that have an analytical accounting system to identify their indirect costs as indicated above;
   b) a project promoter and project partners may opt for a flat rate of up to 25% of total direct eligible costs, excluding direct eligible costs for subcontracting and the costs of resources made available by third parties which are not used on the premises of the project promoter or project partner, subject to the calculation of the rate on the basis of a fair, equitable and verifiable calculation method or a method applied under schemes for grants funded entirely by the Beneficiary State for similar types of project and project promoter;
   c) a project promoter and project partners may opt for a flat rate of up to 15% of direct eligible staff costs;
   d) in case of projects including a research component, indirect eligible costs may be determined by applying a flat rate of 25% of the total direct eligible costs, excluding direct eligible costs for subcontracting and the costs of resources made available by third parties which are not used on the premises of the project promoter or project partner;
2. In case of project promoters or project partners that are international organisations, or bodies or agencies thereof, indirect costs may, be identified in accordance with the relevant rules established by such organisations.
3. In relation to point b) of paragraph 1, the Fund Operator’s guidelines for applicants shall contain provisions on the methodology for the calculation of the flat rate that ensures the fair apportionment of the overall overheads of the project promoters and/or project partners. The flat rate may vary between different categories of projects.

4.5 Purchase of real estate and land
1. The cost of purchase of real estate, meaning buildings constructed or under development and the appropriate rights to the land on which they are built, and land not built on may be eligible under the following conditions, without prejudice to the application of stricter national rules:
   a) there shall be a direct link between the purchase and the objectives of the project;
   b) purchase of real estate and/or land may not represent more than 10% of the total eligible expenditure of the project, unless a higher percentage is explicitly authorized in this Agreement and set in the decision to award the project grant;
   c) a certificate shall be obtained prior to the purchase from an independent qualified evaluator or duly authorized official entity confirming that the purchase price does not exceed the market value and that it is free of all obligations in terms of mortgage and other liabilities, particularly in respect of damage related to pollution. In case of purchase of real estate the certificate must either confirm that the building in question is in conformity with national regulations, or specify what is not in conformity with national regulations but which is to be rectified by the project promoter under the project;
   d) the real estate and/or land shall be used for the purpose and for the period specified in the decision to award the project grant. The ownership must be transferred to the project promoter, or those explicitly designated by the project promoter in the project application as recipients of the real estate and/or land, prior to the completion of the project. The real estate and/or land cannot be sold, rented or mortgaged within five years of the completion of the
project, or longer if stipulated in the project contract. The FMO may waive this restriction if it would result in an unforeseen and unreasonable burden on the project promoter.

e) the real estate and/or land may only be used in conformity with the objectives of the project. In particular, buildings may be used to accommodate public administration services only where such use is in conformity with the objective of the project; and

f) the purchase of real estate and/or land shall be explicitly approved by the Fund Operator prior to the purchase either in the project contract or by a later decision.

2. The restrictions referred to in paragraph 1(d) apply also to buildings that are constructed or reconstructed through a financial contribution from the Norwegian Financial Mechanism 2014-2021.

3. Expenditure on site preparation and construction which essential for the implementation of the project may be eligible.

4. The cost of real estate and/or land already owned, directly or indirectly, by the project promoter, or purchase of real estate and/or land, directly or indirectly, by the project partner or a public administration, shall not be eligible. Under no circumstances shall real estate and/or land be purchased for speculative purposes. The real estate and/or the land shall not have received a national or external donor grant in the last 10 years which could give rise to a duplication of funding.

4.6 Excluded costs
1. The following costs shall not be considered eligible:
   a) interest on debt, debt service charges and late payment charges;
   b) charges for financial transactions and other purely financial costs, except costs related to accounts and financial services imposed by the project contract and this Agreement;
   c) provisions for losses or potential future liabilities;
   d) exchange losses;
   e) recoverable VAT;
   f) costs that are covered by other sources;
   g) fines, penalties and costs of litigation, except where litigation is an integral and necessary component for achieving the outcomes of the project; and
   h) excessive or reckless expenditure.

2. The provisions in this Article shall apply mutatis mutandis to all eligible expenditure unless otherwise stated in this Agreement.

4.7 Project grant rate and co-financing
1. The maximum project grant rate shall be calculated as a percentage of the total eligible expenditure of the project in accordance with Annex II to this Agreement. It shall take into account the need to ensure project promoters’ commitment and ownership, as well as sustainability of the project. When setting the project grant rate, the Fund Operator shall further take into account any economic benefit, e.g. cost savings or increased profit, which is a result from receiving a financial contribution. Economic benefits shall be used in manner which supports the objectives of the project. The applicable rules on state aid, procedural and substantive, shall be complied with at any level of the implementation of the Programme.

2. Co-financing shall be in the form of cash, including electronic transfers.

4.8 First and final dates of eligibility in projects
Costs within projects may be eligible from the date on which the grant is awarded or at a later date set in the project contract. The project contract shall set the final date of eligibility of costs which shall be no later than 30 April 2024. Costs incurred after that date are not eligible.

Chapter 5: Selection of projects and contracting
5.1 Eligible project promoters and partners
Eligible project promoters and partners are specified in Annex II to this Agreement.

5.2 Calls for proposals and availability of funds

before the submission of the final programme report
referred to in Article 7.6.
2. Financial corrections referred to in paragraph 3 of
Article 10.3 shall be deducted from the management
costs referred to in Article 1.10. Should the
remainer of the management costs to be paid to the
Fund Operator not be sufficient to cover the
financial correction, the Fund Operator shall
reimburse the amount due to the FMO within three
months of the decision referred to in Article 10.3.
3. Reimbursement from the Fund Operator to the
FMO is not contingent upon reimbursement from
the project promoter or other recipient of the funds.

4. The Fund Operator shall not be responsible for
amounts that cannot be recovered in accordance
with paragraph 1, if it shows that the loss of the
funds and the circumstances related thereto are not
due to a negligent performance or non-performance
of the obligations of the Fund Operator under this
Agreement.

Chapter 11: Evaluations, reviews, external
monitoring, audits and provision of
information

11.1 External monitoring, review and evaluation
Without prejudice to the monitoring carried out by
the Fund Operator, the FMO may undertake external
monitoring, review and/or evaluation of the
Programme. The FMO shall inform the Fund
Operator about such activities at least two weeks in
advance.

11.2 Audits and on-the-spot verifications arranged
by the FMO
1. The FMO may arrange audits and on-the-spot
verifications of the Programme and projects. The
FMO shall, except in urgent cases, give two weeks’
notice to the Fund Operator concerned before an
audit or on-the-spot verification is carried out.
2. The Fund Operator shall be given an opportunity
to provide comments to an audit report before it is
finalised.

11.3 The Office of the Auditor General of Norway
The Office of the Auditor General of Norway may
conduct audits of the Programme and its projects.
The FMO shall, as far as it is under its control,
ensure that the Fund Operator is given at least two
weeks’ notice before such audit is carried out.

11.4 Access
The persons performing monitoring, evaluation,
reviews, audits or verifications according to this
Agreement shall upon request be granted prompt,
full, and unimpeded access to all information,
documents, persons, locations and facilities,
relevant to the audit or the verification.

11.5 Provision of information
The Fund Operator shall without unreasonable delay
provide the FMO or any person(s) authorised by the
FMO, with such information relating to the
Programme as they may at any time request.

11.6 Records
1. The Fund Operator shall keep full, accurate and
systematic records and accounts in accordance with
Norwegian law.
2. Such records must be kept for a five-year period
following FMO’s approval of the final programme
report. These documents comprise any
documentation concerning the implementation of
the Programme.
3. The Fund Operator shall permit the NMFA, the
FMO, or any person(s) authorised by the FMO, to
inspect or audit, at any reasonable time, the records
and accounts relating to the implementation of the
Agreement and to make copies thereof both during
and after the period of operation of the Programme.

Chapter 12: Code of conduct and conflict of
interest

12.1 Ethical standards
1. The Fund Operator shall observe the highest
ethical standards during the implementation of the
Programme and shall ensure the application of
adequate and effective means to prevent illegal or
corrupt practices.
2. If the Fund Operator or any of its sub-contractors,
personnel, agents or servants offers to give or agrees
to offer or to give or gives to any person, any bribe,
gift, gratuity or commission as an inducement or
reward for doing or forbearing to do any act in
relation to this Agreement or any other contract with
the FMO, or for showing favour or disfavour to any
person in relation to this Agreement or any other
contract with the FMO, then the FMO may terminate
this Agreement, without prejudice to any accrued
rights of the Fund Operator under the Agreement.

12.2 Other income
The payments to the Fund Operator under this
Agreement of the management costs shall constitute
the only income or benefit the Fund Operator may
derive in connection with the Agreement. Neither it, nor its personnel shall accept any commission, discount, allowance, indirect payment or other consideration in connection with, or in relation to, or in discharge of, its obligations under this Agreement.

12.3 Professional secrecy
The Fund Operator and its staff shall maintain professional secrecy for the duration of this Agreement and after completion thereof. In this connection, except with the prior written consent of the FMO, neither the Fund Operator nor the personnel employed or engaged by it shall at any time communicate to any person or entity any confidential information disclosed to them or discovered by them, or make public any information as to the recommendations formulated in the course of or as a result of implementation of this Agreement. Furthermore, they shall not make any use prejudicial to the FMO, of information supplied to them and of the results of studies, tests and research carried out in the course and for the purpose of performing this Agreement.

12.4 Conflict of interest
1. In addition to the requirement related to the selection process, the Fund Operator shall take all necessary measures to prevent or end any situation that could compromise the impartial and objective performance of the Agreement. Such conflict of interest could arise in particular as a result of economic interest, political or national affinity, family or emotional ties, or any other relevant connection or shared interest. Any conflict of interest, which could arise during performance of the Agreement, must be notified in writing to the FMO without delay.

2. The FMO has the right to verify that such measures are adequate and may require additional measures to be taken if necessary. The Fund Operator shall ensure that its staff, including its management, is not placed in a situation which could give rise to conflict of interest. Without prejudice to employees’ rights under national laws, the Fund Operator shall replace, immediately and without compensation from the FMO, any member of its staff exposed to such a situation.

3. The Fund Operator shall refrain from any contract that would compromise its independence or that of its personnel. If the Fund Operator fails to maintain such independence, the FMO may, without prejudice to compensation for any damage that it may have suffered on this account, terminate this Agreement forthwith, without giving formal notice thereof.

Chapter 13: Assignment and sub-contracting

13.1 Assignment
1. An assignment is any agreement by which the Fund Operator transfers its rights under this Agreement or part thereof to a third party.

2. The Fund Operator shall not, without the prior written consent of the FMO, assign the Agreement or any part thereof, or any benefit or interest there under. Any assignment without such consent shall be null and void.

3. The approval of an assignment by the FMO shall not relieve the Fund Operator of its obligations under the Agreement.

13.2 Sub-contracting
1. Any agreement by which the Fund Operator entrusts performance of a part of the services to a third party is considered to be a sub-contract.

2. Without prejudice to the role of the Fund Operator referred to in Article 2.1, the Fund Operator must obtain a prior written authorization of the FMO before entering into a sub-contract exceeding EUR 100,000. Existing framework agreements, which Innovation Norway has entered into with external suppliers on communication and IT services shall not be subject to written approval by the FMO. Sub-contracts for services related to appraisals, monitoring and audits of projects, as required by this Agreement, are not subject to such authorization.

3. No sub-contract can create contractual relations between any sub-contractor and the FMO. The Fund Operator shall be responsible for the acts, defaults and negligence of its sub-contractors and their experts, agents or employees, as if they were the acts, defaults or negligence of the Fund Operator, its experts, agents or employees.

4. The approval by the FMO of the sub-contracting of any part of the Agreement or of the engagement by the Fund Operator of sub-contractors to perform any part of the services shall not relieve the Fund Operator of any of its obligations under the Agreement. Those services entrusted to a sub-contractor by the Fund Operator cannot be entrusted to third parties by the sub-contractor.

Chapter 14: Concluding provisions

14.1 Contact information and bank details
1. The addresses and contact information of the Parties are:
   - Financial Mechanism Office
     Att: Director
     EFTA Secretariat

3. Changes of or corrections to the contact information referred to in this Article shall be given in writing without undue delay by the Parties to this Agreement.

14.2 Information system

1. The Fund Operator shall provide the reports referred to in Chapters 7 and 9 through FMO’s information system. The FMO shall give the Fund Operator access to the system and provide the necessary guidance to enable the Fund Operator to use the system correctly.

2. Should the system referred to in paragraph 1 become unavailable or be discontinued, the FMO may require the Fund Operator to provide these reports in another format provided by the FMO, whether electronic or hard copies.

14.3 Waiver of responsibility

1. Nothing contained in this Agreement shall be construed as imposing upon the FMO any responsibility of any kind for the supervision, execution, completion or operation of the Programme or its projects.

2. Neither the European Free Trade Association, its Secretariat, including the FMO, its officials or employees can be held liable for any damage or injuries of whatever nature sustained by the Fund Operator or a project promoter, recipient of funds, or any other third person in connection, be it direct or indirect, with this Agreement.

3. This waiver of responsibility shall also bind the project promoters. Each project contract shall contain a provision to that effect.

14.4 Privileges and immunities

Nothing contained in this Agreement shall be deemed a waiver expressed or implied of any privileges and immunities of the European Free Trade Association, its assets, officials or employees.

14.5 Law on Innovation Norway

In case any doubt arises as to the consistency of the provisions of this Agreement with the Law on Innovation Norway of 19 December 2003, as amended, the Fund Operator shall notify the FMO without delay, with a view to assessing the consequences of such inconsistency.

14.6 Programme modification

1. Any amendment to this Agreement shall be subject to a written agreement concluded by the Parties, unless otherwise specified in the Annexes to this Agreement. Any amendment to the Annexes to this Agreement shall, where possible, be agreed through the FMO’s electronic grant management system.

2. The Fund Operator shall describe and justify the modification, as well as the likely impact on the financial figures, risk assessment, outputs and outcomes of the Programme.

3. The FMO shall assess the proposed modification and provide a formal response no later than one month following the receipt of all relevant documents and necessary information.

14.7 Termination, compensation and damages

1. Either party may terminate this Agreement in the event of a serious breach by the other party which remains unremedied for 30 days following written notice thereof making specific reference to the breach and to this Article. The requirement of written notice shall not apply where it is clear from the circumstances, or the party in breach has clearly indicated, that it is unable or has no intention to remedy the breach.

2. In addition, the FMO shall be entitled to terminate this Agreement where the Fund Operator:
   a) becomes insolvent or bankrupt;
   b) has a receiving order or administration order made against it or compounds with its creditors;
   c) being a legal person commences to be wound up; or
   d) carries on its activities under an administrator or administrative receiver for the benefit of its creditors or any of them.

Any of the above events shall be deemed a breach by the Fund Operator.

3. Should this Agreement be terminated pursuant to either of the preceding paragraphs 1 or 2, the party whose breach has occasioned the termination shall (without prejudice to the following provisions) compensate the other party for all losses, costs and wasted expenditure incurred by the other party in consequence of the termination.

4. The FMO may terminate this Agreement if changes in the political environment put into doubt the feasibility of the Programme.

5. In all cases where this Agreement is terminated prior to its entire performance:
a) the FMO shall (without prejudice to the payment obligations provided in the preceding paragraphs) pay the Fund Operator for the work already performed and (unless the termination arises by reason of a breach by the Fund Operator) commitments already undertaken which cannot reasonably be cancelled and reasonable costs for closing down the Fund Operator’s role in the operation, provided that the total amount paid to the Fund Operator shall not exceed the amount of the management costs referred to in Article 1.10;

b) any rights and obligations of the Fund Operator vis-à-vis project promoters shall automatically be transferred to the FMO which shall be entitled to retransfer them to any replacement Fund Operator whom it may appoint;

c) the Fund Operator shall provide to the FMO or to any replacement Fund Operator such reasonable assistance as the latter may require to ensure the continuing good administration of the Programme and in particular shall provide the FMO or replacement Fund Operator with all contact details and copies of all its files concerning each of the project promoters and project contracts. The Fund Operator shall also cooperate with the FMO or replacement Fund Operator in notifying the project promoters of the change of Fund Operator and in ensuring the smooth continuation of the Programme.

6. Where the FMO is entitled to damages or compensation from the Fund Operator, it may deduct such amounts from any sums due to the Fund Operator and/or call on the appropriate guarantee.

7. The FMO shall be entitled to compensation from the Fund Operator for any damage which comes to light after the completion of the Programme.

14.8 Indemnification

1. At its own expense, the Fund Operator shall indemnify, protect and defend the Donor State(s), the FMO, its agents and employees, from and against all actions, claims, losses or damage arising from any act or omission by the Fund Operator in the performance of the Agreement provided that:

   a) the Fund Operator is notified of such actions, claims, losses or damages not later than 30 days after the FMO becomes aware of them;

   b) the ceiling on the Fund Operator's liability to the FMO shall be limited to an amount equal to the management costs referred to in Article 1.10, but such ceiling shall not apply to any losses or damages caused to third parties by the Fund Operator or by the Fund Operator's gross negligence or willful misconduct;

   c) the Fund Operator's liability shall be limited to actions, claims, losses or damages directly caused by such failure to perform its obligations under the Agreement and shall not include liability arising from unforeseeable occurrences incidental or indirectly consequential to such failure.

2. At its own expense, the Fund Operator shall, upon request of the FMO, remedy any defect in the performance of the services in the event of the Fund Operator's failure to perform its obligations under the Agreement.

3. The Fund Operator shall have no liability whatsoever for actions, claims, losses or damages occasioned by:

   a) the FMO omitting to act on any recommendation, or overriding any act, decision or recommendation, of the Fund Operator, or requiring the Fund Operator to implement a decision or recommendation with which the Fund Operator disagrees or on which it expresses a serious reservation; or

   b) the improper execution of the Fund Operator's instructions by agents, employees or independent contractors of the FMO.

4. The Fund Operator shall remain responsible for any breach of its obligations under the Agreement for five years following the approval of the final programme report.

14.9 Force majeure

1. Neither Party shall be considered to be in breach of its obligations under the Agreement if the performance of such obligations is prevented by any circumstances of force majeure which arise after the date of the last signature of this Agreement.

2. The term "force majeure", as used herein shall include without limitation acts of God as strikes, lock-outs or other industrial disturbances, acts of the public enemy, wars, whether declared or not, blockades, insurrection, riots, epidemics, landslides, earthquakes, storms, lightning, floods, washouts, civil disturbances, explosions, and any other similar unforeseeable events, beyond the control of either Party and which by the exercise of due diligence neither Party is able to overcome. For the avoidance of doubt, inability to pay any sum of money shall not be considered force majeure.
3. A Party affected by an event of force majeure shall take all reasonable measures to remove such Party’s inability to fulfil its obligations hereunder with a minimum of delay.

4. The Fund Operator shall not be liable for contract damages or termination for default if, and to the extent that, its delay in performance or other failure to perform its obligations under the Agreement is the result of an event of force majeure. The FMO shall similarly not be liable for delayed performance, for non-performance or for termination by the Fund Operator for default, if, and to the extent that, the FMO’s delay or other failure to perform its obligations is the result of force majeure.

5. If either Party considers that any circumstances of force majeure have occurred which may affect performance of its obligations it shall notify the other Party immediately giving details of the nature, the probable duration and likely effect of the circumstances. Unless otherwise directed by the FMO in writing, the Fund Operator shall continue to perform its obligations under the Agreement as far as is reasonably practicable, and shall seek all reasonable alternative means for performance of its obligations, which are not prevented by the force majeure event. The Fund Operator shall not put into effect such alternative means unless directed so to do by the FMO.

6. If circumstances of force majeure have occurred and persist for a period of 180 days then, notwithstanding any extension of the period of execution that the Fund Operator may by reason thereof have been granted, either Party shall be entitled to serve upon the other 30 days’ notice to terminate the Agreement. If at the expiry of the period of 30 days the situation of force majeure persists, the Agreement shall be terminated and in consequence thereof, the Parties shall be released from further performance of the Agreement.

14.10 Dispute resolution
1. Any dispute relating to the conclusion, validity, interpretation or performance of this Agreement shall be resolved amicably through consultation between the Parties.

2. Without prejudice to the privileges and immunities granted to the European Free Trade Association, its assets, premises and officials, any dispute arising out of or in relation with this Agreement which cannot be settled amicably, shall be brought before the Court of Oslo (Oslo Tingrett) and finally settled in accordance with the laws of the Kingdom of Norway.

SGS no. 3 will support soft measures towards increasing the competitiveness of SMEs in Bulgaria.

The fourth SGS (SGS no. 4) will aim at supporting bilateral activities, including business matchmaking, experience sharing, partner search, business to business meetings.
