**Project title:**
European Digital Bootcamps (EDIBO)

**WHY:**
Many jobs are now being digitalised, and there is a lack of people with ICT skills. Young unemployed people may fill these jobs if they get the necessary ICT skills.

**WHAT:**
The project partners will develop and test a model to strengthen the ICT skills of young people under 30 who are not in employment, education or training. The model is inspired by the new “Rapid Technology Skills Training” developed by the World Bank and includes close cooperation with employers. Every partner of the project will organise “European digital training labs”, with ten weeks of intensive ICT training combined with other types of training like English language courses. After the training phase, participants will have the opportunity to get an apprenticeship.

**TARGET GROUPS:**
• Young people under the age of 30 who are not studying or working, with a special focus on those aged 25-29 from disadvantaged groups (low-income, women, migrants, youngsters from rural areas)

**ABOUT THE FUND**
The €60 million EEA and Norway Grants Fund for Youth Employment supports transnational project initiatives that promote sustainable and quality youth employment in Europe. The focus on transnational cooperation reflects the view that unemployment among youth is a common European challenge and common European solutions should therefore be explored.

The fund seeks to complement existing EU funding on youth employment initiatives, e.g. the long-term unemployed in the age group 25-29.

The selected projects aim to:
• Make it easier for 26 000 young people to find a job
• Create 3500 jobs in NGOs and social enterprises
• Help 1800 young people start up their own business

The 27 selected projects involve partners from all the 15 beneficiary countries of the EEA and Norway Grants as well as Ireland, Italy and Spain – all countries with high youth unemployment. The projects also include expertise partners from the donor countries Iceland and Norway as well as two international organisations and other EU member states.

**ABOUT THE EEA AND NORWAY GRANTS**
The EEA and Norway Grants represent the contribution of Iceland, Liechtenstein and Norway to reducing economic and social disparities and to strengthening bilateral relations with 15 EU countries in Central and Southern Europe and the Baltics. For the period 2014-2021, the total contribution is €2.8 billion (EEA Grants €1.5 billion and Norway Grants €1.3 billion).

Under the EEA Agreement, Iceland, Liechtenstein and Norway are part of the European internal market. The EEA Agreement sets out the common goal of working together to reduce social and economic disparities.
