ABOUT THE PROJECT

WHY: We need to know more about the effects of employment initiatives that aim to help young people get a job. Researchers need to become better at studying such effects and share information across national borders. Policies and initiatives to help young unemployed people need to be based on scientific facts.

WHAT: The project partners aim to cooperate in the evaluation of two different forms of employment initiatives targeting youth in Spain, Hungary, Italy and Poland, support other researchers in doing such evaluation studies, and promote the use of such studies to policy-makers. As a result, youth employment policies can become more effective.

PROJECT DURATION (months):
36

GRANT AMOUNT:
€ 1.8 MILLION

AREAS OF SUPPORT:
ANALYSIS AND RESEARCH

Target groups:

- Researchers evaluating public policy with administrative data
- NGOs working with youth
- Policy-makers implementing youth policies
- Young people who would benefit from improved youth policies

ABOUT THE FUND

The €60 million EEA and Norway Grants Fund for Youth Employment supports transnational project initiatives that promote sustainable and quality youth employment in Europe. The focus on transnational cooperation reflects the view that unemployment among youth is a common European challenge and common European solutions should therefore be explored.

The fund seeks to complement existing EU funding on youth employment initiatives, e.g. the long-term unemployed in the age group 25-29.

The selected projects aim to:

- Make it easier for 25 000 young people to find a job
- Create 3500 jobs in NGOs and social enterprises
- Help 1800 young people start up their own business

The 27 selected projects involve partners from all the 15 beneficiary countries of the EEA and Norway Grants as well as Ireland, Italy and Spain – all countries with high youth unemployment. The projects also include expertise partners from the donor countries Iceland and Norway as well as two international organisations and other EU member states.

ABOUT THE EEA AND NORWAY GRANTS

The EEA and Norway Grants represent the contribution of Iceland, Liechtenstein and Norway to reducing economic and social disparities and to strengthening bilateral relations with 15 EU countries in Central and Southern Europe and the Baltics. For the period 2014-2021, the total contribution is €2.8 billion (EEA Grants €1.5 billion and Norway Grants €1.3 billion).

Under the EEA Agreement, Iceland, Liechtenstein and Norway are part of the European internal market. The EEA Agreement sets out the common goal of working together to reduce social and economic disparities.
