### *4.1 Payment flows*

Payments towards the end beneficiaries will be in the form of advance payments, interim payments and payments of the final balance.

The Project Promoters have the possibility to request an advance payment not exceeding 30% of eligible expenditures. The advance payment ceilings and the off-set mechanism will be adapted to each Project Promoter's liquidity and specified in the Project Contract. An advance payment bank guarantee will be requested from Project Promoters who belong to the private sector. Additional information on the advance payment conditions and the off-set mechanism shall be further outlined in the description of the Programme Operator's Management and Control Systems according to Article 4.8.2 of the Regulation.

The interim payments will be based upon incurred costs. The Programme Operator has the possibility to withhold up to 5% of the total grant for the final balance.

### *4.2 Verification of payment claims*

The payment requests prepared by the Project Promoters will be reviewed by the CPMA. The CPMA will finish the verification process within 45 working days after receiving all necessary supporting documents linked to the payment request. The conclusion of the CPMA on the eligibility of costs included in the payment request will be sent to the Programme Operator and to the Project Promoter.

The rules and frequency of payment requests provided by the Project Promoter will be set in the Project Contract. Payment requests based upon incurred expenditures will have to be provided no more than once per month and at least once every third month.

Depending on the risk level and the amount of documents of each payment request the CPMA will use two methods – 100% check and the sampling method. The CPMA will use the stratified systematic sampling method for verification of the payment requests to insure the best representativeness. It means that the costs are stratified to the different groups of costs (works, salaries etc.) and for the different groups the systematic sampling is applied. Depending on the results of the sample check, the sample size can be increased. The methods of verification of costs are periodically reviewed and improved.

In line with Article 7.13.3 of the Regulation, a report by an independent and certified auditor, certifying that the claimed costs are incurred in accordance with this Regulation, the national law and accounting practices of the project partner's country, shall, subject to Article 7.13.5 of the Regulation, be seen as sufficient proof of costs incurred by a project partner whose primary location is in a Donor State.

The detailed procedures for the verification of payment claims, periodicity of reporting periods, and deadlines for reporting outlined in the Programme proposal will further be detailed in the description of the Programme Operator's Management and Control Systems according to Article 4.8.2 of the Regulation.

### *4.3 Monitoring and reporting*

The Programme Operator and the CPMA are jointly responsible for the monitoring as specified in article 4.7.1 (f) of the Regulation.

On-the-spot checks will be conducted at least once during the project's implementation, and can also be conducted on an ad-hoc basis when considered necessary. Planned on-the-spot checks will be carried out based on the on-spot-checks annual plan. The Project Promoter will be informed about the date of the planned on-the-spot check in advance. On-the-spot checks on an ad-hoc basis can be organized when suspicions arise that the information provided by the Project Promoter is incorrect or misleading. On-the-spot checks on an ad-hoc basis can also be organized based on other reasons. Only in the latter cases, information about the date of the on-the-spot-check on an ad-hoc basis may be provided to the Project Promoter in advance. On-the-spot checks are carried out by the CPMA.

Irregularities will be handled in accordance with Article 11 of the Regulation.

Information on Reporting and Monitoring shall be outlined in the description of the Management and Control System according to Article 4.8.2 of the Regulation and further detailed in the CPMA's internal procedures.
