6. When carrying out audits, the Audit Authority shall take due account of the principles of single audit and proportionality in relation to the level of risk to the implementation of the Norwegian Financial Mechanism. This shall be, in particular, to avoid duplication of audits and verifications of the same expenditure with the objective of minimising the cost of verifications and audits and the administrative burden on beneficiaries. The Audit Authority shall first use all the information and records referred to in point (l) of Article 5.6.1, including results of verifications, and only request and obtain additional documents and audit evidence from the beneficiaries concerned where, based on their professional judgement, this is required to support robust audit conclusions.

In such cases, the Programme Operator may, through the National Focal Point, resubmit once a revised Concept Note within two months from the date of the rejection. The National Focal Point may, as an alternative and within the same deadline, propose different use of the funds. If funds are to be used for another programme and the receiving programme has already been approved, such reallocation of funds shall comply with Article 6.7.5.

6. The Concept Note template shall be provided by the NMFA.

Article 6.3 Approval of programmes

1. On the basis of the Concept Note and the comments of the NMFA on the Concept Note, the FMO shall prepare a draft Programme Agreement setting out the terms and conditions of the operation of the programme as well as the roles and responsibilities of the parties. 2. The maximum project grant rate shall be calculated as a percentage of the total eligible expenditure of the project, proposed in the Concept Note and determined in the Programme Agreement. It shall take into account the need to ensure Project Promoters' commitment and ownership, as well as the sustainability of the project. When setting the project grant rate, the Programme Operator shall further take into account any economic benefit, e.g. cost savings or increased profit, which is a result from receiving a financial contribution. Economic benefits shall be used in a manner which supports the objectives of the project. The applicable rules on state aid shall be complied with.

3. Co-financing under paragraphs 1 and 2 shall be in the form of cash, including electronic transfers.

The Programme Operator shall specify the appropriate unit prices for the labour which shall be in accordance with salary normally paid for such labour in the Beneficiary State, including the required social security contributions. The prices may vary depending on region in which the labour is performed or the type of labour, and may be adjusted during the implementation of the programme in order to take into account changes in salaries.

7. The amount of grant assistance applied for within a programme shall be proposed in the Concept Note and specified in the Programme Agreement.

3. The NMFA shall assess the proposed modification and provide a formal response not later than two months following the receipt of all relevant documents and necessary information. Consistency with the values and principles referred to in Article 1.3 shall form part of the assessment of the NMFA.
4. The modification shall be formalised through an amendment of the Programme Agreement referred to in Article 6.3.3.
5. Should a modification of a programme result in a reduction of the programme grant, the National Focal Point may allocate the amount that becomes available to other approved programmes within the Beneficiary State, the funds for bilateral relations and/or technical assistance. A prior approval of the NMFA and of the Programme Operator of the programme receiving the funds shall be required. The modification shall be in compliance with the Memorandum

Chapter 8

Eligibility of expenditures

Article 8.1

Eligible expenditures of a programme

Eligible expenditures of a programme are:

- (a) management costs of the Programme Operator in accordance with Article 8.10;
- (b) payments to projects within the programme in accordance with this Regulation, the Programme Agreement and the project contracts; and
- (c) payments from the funds for bilateral relations in accordance with Article 4.10.

Article 8.2

General principles on the eligibility of expenditures

1. Eligible expenditures of projects are those actually incurred within the projects as well as expenditures covered by simplified cost options (unit costs, flat rates and lump sums). The expenditures shall meet the following criteria:

- (a) for costs pursuant to point (a) of Article 8.3.1, they are actually incurred between the first and final dates of eligibility of a project as specified in the project contract. For costs pursuant to points (b) and (c) of Article 8.3.1, the actions constituting the basis for payment are carried out between the first and final dates of eligibility of a project as specified in the project contract;
- (b) they are connected with the subject of the project contract and they are indicated in the detailed budget of the project;
- (c) they are proportionate and necessary for the implementation of the project;
- (d) they must be used for the sole purpose of achieving the objective(s) of the project and its expected outcome(s), in a manner consistent with the principles of economy, efficiency and effectiveness;
- (e) for costs pursuant to point (a) of Article 8.3.1, they are identifiable and verifiable, in particular through being recorded in the accounting records of the Project Promoter and/or project partner and determined according to the applicable accounting standards of the country where the Project Promoter and/or project partner is established and according to generally accepted accounting principles; and
- (f) they comply with the requirements of applicable tax and social legislation.

2. Expenditures pursuant to point (a) of Article 8.3.1 are considered to have been incurred when the cost has been invoiced, paid and the subject matter delivered (in case of goods) or performed (in case of services and works). Exceptionally, costs in respect of which an invoice has been issued in the final month of eligibility are also deemed to be incurred within the dates of eligibility if the costs are paid by the end of the next month after the final date of eligibility. Overheads and depreciation of equipment are considered to have been incurred when they are recorded on the accounts of the Project Promoter and/or project partner.

3. Where new or second-hand equipment is purchased, only the portion of the depreciation corresponding to the duration of the project and the rate of actual use for the purposes of the project may be considered eligible expenditure.

4. The internal accounting and auditing procedures of the Project Promoter and project partners must permit direct reconciliation of the expenditures and revenue declared in respect of the project with the corresponding accounting statements and supporting documents.

5. In case of projects implemented by an international organisation or body or an agency thereof, the Programme Agreement may include specific provisions with regard to the eligibility of expenditures.

6. The principles set forth in this article shall apply *mutatis mutandis* to all eligible expenditures, except for technical assistance, unless otherwise explicitly stated in this Regulation.

Article 8.3

Forms of grants

1. Grants to beneficiaries may take any of the following forms:

- (a) eligible costs actually incurred;
- (b) unit costs;
- (c) lump sums;
- (d) flat-rate financing; or
- (e) a combination of the forms referred to in points (a) to (d), provided that each form covers different categories of costs, or where they are used for successive phases of a project.

2. The amounts for the forms of grants referred to under points (b), (c) and (d) of paragraph 1, shall be established *ex ante*, in one of the following ways:

- (a) flat rates and specific methods established by or on the basis of this Regulation or sector specific articles and guidelines;
- (b) in accordance with the rules for application of corresponding unit costs, lump sums and flat rates applied under schemes for grants funded entirely by the Beneficiary State, or Norway in the case of Donor project partners, for a similar type of project;
- (c) in accordance with the rules for application of corresponding unit costs, lump sums and flat rates applicable in European Union policies for a similar type of project;
- (d) a draft budget established on a case-by-case basis and agreed ex ante by the Programme Operator, where the total cost of the project does not exceed EUR 200,000; or
- (e) a fair, equitable and verifiable calculation method, verified by the Audit Authority and based on:
 - (i) statistical data, other objective information or an expert judgement;
 - (ii) the verified historical data of individual beneficiaries; or
 - (iii) the application of the usual cost accounting practices of individual beneficiaries.

3. The use of flat rates, unit costs and lump sums, their amount and the way they are established shall be determined in the project contract. The use of flat rates, unit costs and lump sums, their amount and the way they are calculated for a project partner shall also be stipulated in the partnership agreement between the Project Promoter and the project partner.

4. In duly justified cases, the options for the forms of grants listed in paragraph 1 may be limited in the Programme Agreement. Additionally, when developing a call for proposals, the Programme Operator may propose to set in the call specific limitations for the options for the forms of grants. In Donor partnership programmes, the Programme Operator shall consult the relevant Donor Programme Partner prior to making any limitations.

Article 8.4

Eligible direct expenditures in a project

1. The eligible direct expenditures for a project are those expenditures which are directly linked to the implementation of the project, and which can therefore be attributed to it directly. The following direct expenditures are eligible provided that they satisfy the criteria set out in Article 8.2:

- (a) the cost of staff assigned to the project, comprising actual salaries plus social security charges and other statutory costs included in the remuneration, provided that this corresponds to the Project Promoter's and project partner's usual policy on remuneration. The corresponding salary costs of staff of national administrations are eligible to the extent that they relate to the cost of activities which the relevant public authority would not carry out if the project concerned were not undertaken;
- (b) travel and subsistence allowances for staff and participants in the project, provided that this corresponds to the usual policy of the Project Promoter and project partner on travel allowances;
- (c) cost of new or second-hand equipment. In case the Programme Operator determines that the equipment is an integral and necessary component for achieving the outcomes of the project, the entire purchase price of that equipment may, by way of exception from the rule contained in Article 8.2.3, be eligible. This exception is not applicable to the funds for bilateral relations;
- (d) purchase of land and real estate under the conditions set in Article 8.8, except for the funds for bilateral relations;
- (e) costs of consumables and supplies, provided that they are identifiable and assigned to the project;
- (f) costs entailed by other contracts awarded by a Project Promoter or project partner for the purposes of carrying out the project, provided that the awarding complies with the applicable rules on public procurement and this Regulation; and
- (g) costs arising directly from requirements imposed by the project contract for each project.

2. Where the entire purchase price of equipment is eligible in accordance with point (c) of paragraph 1, the Programme Operator shall ensure that the Project Promoter or project partner:

- (a) keeps the equipment in its ownership for a period of at least three years following the completion of the project and continues to use that equipment for the benefit of the overall objectives of the project for the same period;
- (b) where possible, keeps the equipment properly insured against losses such as fire, theft or other normally insurable incidents both during project implementation and for at least three years following the completion of the project; and
- (c) sets aside appropriate resources for the maintenance of the equipment for at least three years following the completion of the project.

3. The specific means for the implementation of the obligation referred to in paragraph 2 shall be specified in the project contract. The Programme Operator may release any Project Promoter or project partner from the above obligations with respect to any specifically identified equipment where the Programme Operator is satisfied that, having regard to all relevant circumstances, the cost of maintenance or insurance in the above obligations would be disproportionate to the value of the equipment.

4. In exceptional and duly justified cases, the Programme Operator may suggest additional expenditures, including regranting at project level, to be eligible or exclude certain expenditure listed in paragraph 1. Such deviations, if approved by the NMFA, shall be explicitly stipulated in the Programme Agreement and where relevant be accompanied by the necessary terms and conditions with regard to the eligibility of the expenditure in question.

Article 8.5

Indirect costs in projects (overheads)

1. Indirect costs are all eligible costs that cannot be directly attributed to the project. They may not include any eligible direct costs. Indirect costs shall represent a fair apportionment of the overall overheads of the Project Promoter and/or project partner(s). Project Promoters and project partners may identify their indirect costs according to one of the following methods:

- (a) up to 7 % of eligible direct costs, in which case the Programme Operator shall not be required to perform a calculation to determine the applicable rate;
- (b) up to 15 % of eligible direct staff costs, in which case the Programme Operator shall not be required to perform a calculation to determine the applicable rate;
- (c) up to 25 % of eligible direct costs, provided that the rate is calculated in accordance with paragraph 2 of this Article;
- (d) a flat rate applied to direct eligible costs based on existing methods and corresponding rates applicable in European Union policies for similar types of project;
- (e) based on actual indirect costs for those Project Promoters and/or project partners that have an analytical accounting system to identify indirect costs incurred in direct relationship with the eligible direct costs attributed to the project; or
- (f) in the case of Project Promoters and/or project partners that are international organisations or bodies or agencies thereof, indirect costs may, in line with specific provisions in the Programme Agreement, be identified in

accordance with the relevant rules established by such organisations.

2. The application of the method described in point (c) of paragraph 1 is subject to the calculation of the rate on the basis of the fair, equitable and verifiable calculation method referred to in point (e) of Article 8.3.2 or a method applied under schemes, for grants funded entirely by the Beneficiary State, or Norway in the case of Donor project partners, for similar types of project.

Article 8.6

Direct staff costs

1. Direct staff costs of a project may be calculated at a flat rate of up to 20 % of the eligible direct costs other than the direct staff costs of that project, without there being a requirement for the Programme Operator to perform a calculation to determine the applicable rate, provided that the direct costs of the project do not include public works contracts or supply or service contracts which exceed in value the thresholds set out in Article 4 of Directive 2014/24/EU of the European Parliament and of the Council on public procurement.

2. For the purposes of determining direct staff costs, an hourly rate may be calculated in one of the following ways:

- (a) by dividing the latest documented annual gross employment costs by 1,720 hours for persons working full time, or by a corresponding pro-rata of 1,720 hours for persons working part-time; or
- (b) by dividing the latest documented monthly gross employment costs by the average monthly working time of the person concerned in accordance with applicable national rules referred to in the employment or work contract or an appointment decision (both referred to as the employment document).

3. When applying the hourly rate calculated in accordance with paragraph 2, the total number of hours declared per person for a given year or month shall not exceed the number of hours used for the calculation of that hourly rate.

4. Where annual gross employment costs are not available, they may be derived from the available documented gross employment costs or from the employment document, duly adjusted for a twelve-month period.

5. In the case of actually incurred staff costs, costs related to individuals who work on part-time assignment on the project may be calculated as a fixed percentage of the gross employment costs, in line with a fixed percentage of time worked on the project per month, with no obligation to

establish a separate working time registration system. The employer shall issue a document for employees setting out that fixed percentage.

Article 8.7

Flat rate financing for costs other than direct staff costs

1. A flat rate of up to 40% of eligible direct staff costs may be used in order to cover all remaining eligible costs of a project. The Programme Operator shall not be required to perform a calculation to determine the applicable rate.

2. The flat rate referred to in paragraph 1 of this Article shall not be applied to staff costs calculated on the basis of a flat rate as referred to in Article 8.6.1.

Article 8.8

Purchase of real estate and land

1. The cost of purchase of real estate and land not built on may be eligible under the following conditions, without prejudice to the application of stricter national rules:

- (a) there shall be a direct link between the purchase and the objectives of the project;
- (b) purchase of real estate and/or land may not represent more than 10% of the total eligible expenditure of the project, unless a higher percentage is explicitly authorised in the Programme Agreement and set in the decision to award the project grant;
- (c) a certificate shall be obtained prior to the purchase from an independent qualified evaluator or duly authorised official entity confirming that the purchase price does not exceed the market value and that it is free of all obligations in terms of mortgage and other liabilities, particularly in respect of damage related to pollution. In case of purchase of real estate the certificate must either confirm that the building in question is in conformity with national regulations, or specify what is not in conformity with national regulations but which is to be rectified by the Project Promoter under the project;
- (d) the real estate and/or the land shall be used for the purpose and for the period specified in the decision to award the project grant. The ownership must be transferred to the Project Promoter, or those explicitly designated by the Project Promoter in the project application as recipients of the real estate and/or the land, prior to the completion of the project. The real estate and/or the land cannot be sold or mortgaged within five years of the completion of the project, or longer if stipulated in the project contract. The NMFA may waive this restriction if it would result in an unreasonable burden on the Project Promoter;

- (e) the real estate and/or land may only be used in conformity with the objectives of the project. In particular, buildings may be used to accommodate public administration services only where such use is in conformity with the objective of the project;
- (f) the purchase of real estate and/or land shall be explicitly approved by the Programme Operator prior to the purchase, either in the project contract or by a later decision; and
- (g) the real estate and/or the land may be rented to third parties, if stipulated in the project contract, provided that this is consistent with the objectives of the project.

2. Real estate shall mean buildings constructed or under development and the appropriate rights to the land on which they are built.

3. The restrictions referred to in point (d) of paragraph 1 apply also to buildings that are constructed, reconstructed or renovated through a financial contribution from the Norwegian Financial Mechanism 2021-2028.

4. The mortgage restriction referred to in point (d) of paragraph 1 does not apply to a mortgage taken in favour of the Programme Operator or the National Focal Point when its purpose is solely to ensure compliance with the said paragraph.

5. The cost of real estate and/or land already owned, directly or indirectly, by the Project Promoter, or purchase of real estate and/or land owned, directly or indirectly, by the project partner or a public administration, shall not be eligible. Under no circumstances shall real estate and/or land be purchased for speculative purposes. The real estate and/or the land shall not have benefitted from a national or external donor grant in the last 10 years which would give rise to a duplication of funding.

Article 8.9

Excluded costs

1. The following costs shall not be considered eligible:

- (a) interest on debt, debt service charges and late payment charges;
- (b) charges for financial transactions and other purely financial costs, except costs related to accounts required by the NMFA, the National Focal Point or the applicable law and costs of financial services imposed by the project contract;
- (c) provisions for losses or potential future liabilities;

The first date of eligibility of expenditure of management costs of a Programme Operator shall be the date of entry into force of the Memorandum of Understanding in which the Programme Operator is designated. The final date of eligibility shall be 30 April 2032 unless an earlier date is specified in the Programme Agreement.

- (b) 7% of the next € 40 million;
- (c) 5% of the next € 50 million; and

6. In cases where the selection of the Programme Operator in the Beneficiary State is conducted through a competitive tendering procedure, the NMFA can in the Programme Agreement, decide that the contract value shall be accepted as management costs *in lieu* of actually incurred expenditures. The ceiling set out in paragraph 2 shall apply.

7. The eligibility of costs under this article is conditional on the approval of the programme by the NMFA.

8. In justified cases of budgetary constraints and at the discretion of the NMFA, extraordinary advance payments

towards costs related to the preparation of programmes may be disbursed to the Beneficiary States.

Article 8.11

4. Proof of expenditure for activities implemented by an international organisation, in which Norway is a member, shall take the form of a signed financial report, confirming that the claimed costs are in accordance with the principles and rules set forth in the project contract and that the financial data contained in the report is in accordance with the financial records and accounting practices of that international organisation.

5. In line with the responsibility of the Programme Operator to verify expenditure declared, requirements for the submission of proof of expenditure for costs incurred shall be set in the project contract and where applicable, the

partnership agreement. The requirements for submission of proof of expenditure shall be proportional to the total grant allocation to each promoter and/or partner:

The Audit Authority shall be granted access to the supporting documents referred to in paragraph 1 held by Project Promoters or project partners located within the respective Beneficiary State.

7. The submission of supporting documents shall be subject to national and European Union law on data protection.

8. This article shall apply *mutatis mutandis* to all expenditure, except for technical assistance, unless otherwise explicitly stated in this Regulation.

Article 8.13

Proof of conditions fulfilled for simplified cost options

1. Where flat rates are used, the proof of conditions fulfilled depends on the form of the basis costs:

- (a) in case the basis costs take the form pursuant to point (a) of Article 8.3.1, Article 8.12 shall apply to the basis cost;

- (b) in case the basis costs take the form pursuant to points (b) and (c) of Article 8.3.1, paragraph 2 shall apply to the basis cost.

Article 8.14

Period of eligibility of expenditures in projects

1. The first and final dates of eligibility of each project shall be stated in the project contract for that project.

2. Unless a later date is provided in the Programme Agreement or the project contract, expenditure incurred shall be eligible for assistance as of the date on which the Programme Operator decides on which projects shall be supported. The Programme Operator shall in the same decision fix the final date of eligibility which shall be no later than either one year after the scheduled completion of the project or the date referred to in paragraph 5, whichever is earlier.

3. By way of exception from paragraph 2, limited preparation costs of projects selected for funding may be eligible as of the date of publication of the respective call for proposals in line with clear and transparent rules established by the Programme Operator.

4. The first date of eligibility of any pre-defined project shall be not earlier than the date of entry into force of the Programme Agreement.

5. Expenditures incurred after 30 April 2031 shall not be eligible.

6. If a project has not been completed by the date of submission of the Final Programme Report, as defined in Article 6.8.2, the Programme Operator shall reimburse to the NMFA its financial contribution to the project. If clearly identifiable and viable components of the project have been completed, the NMFA may waive, in full or in part, its right to reimbursement.

Article 8.15

Durability of projects

1. The Programme Operator shall ensure that in the case of projects that involve investment in real estate and/or land (including construction, reconstruction and renovation) the real estate and/or land is used for the purpose of the project as described in the project contract for at least five years after the approval of the project completion report by the Programme Operator.
2. For other projects, the period of minimum post-completion operation shall be determined by the Programme Operator, described in the call for proposals and included in the project contract. The determination of this period shall be guided by the aim of promoting the sustainability of the project and of ensuring that the financial support provided to the project generates the maximum benefits to its target group and final beneficiaries.
3. The Beneficiary State and the Programme Operator shall ensure that the Project Promoter retains the contribution from the Norwegian Financial Mechanism 2021-2028 only if the project is in compliance with paragraphs 1 and 2.

Article 8.16

Procurement

1. Applicable national and European Union law on public procurement shall be complied with at any level in the implementation of programmes and projects. To this end, any entity that is a 'contracting authority' within the meaning of the EU Directives on public procurement shall comply with the applicable national law on public procurement.
2. All other entities shall follow an open procurement procedure, where the amount of the contract is at or above the relevant European Union thresholds set for public procurement. In such cases any economic operator may submit a tender. The invitation to tender shall be published at least on the website or social media presence of the entity and in other relevant media. The tender documents shall include clear and precise exclusion, selection and award criteria. The selection process shall be documented. The minimum time limit for the submission of tenders is 35 days from the publication date of the contract notice. This paragraph does not apply to Project Promoters or project partners in projects that receive less than 50% of the eligible expenditure of the project as a grant from a programme under the Norwegian Financial Mechanism 2021-2028.
3. In cases where contracts concluded fall below the European Union thresholds set for public procurement or

outside the scope of the applicable public procurement laws, the awarding of such contracts (including the procedures prior to the awarding) and the terms and conditions of such contracts shall, in line with the principle of proportionality, comply with best economic practices, including accountability, allow a full and fair competition between potential providers, for example by way of effective price comparison, and ensure the optimal use of resources from the Norwegian Financial Mechanism 2021-2028.

4. Procurement procedures in projects implemented by an international organisation, in which Norway is a member, shall be carried out in accordance with the procurement rules established by that international organisation.

5. The highest ethical standards, as well as the avoidance of any conflicts of interest, shall be observed during the procurement and execution of contracts. The Programme Operator shall ensure the application of adequate and effective means to prevent illegal or corrupt practices. No offer, gifts, payments or benefit of any kind, which would or could, either directly or indirectly, be construed as an illegal or corrupt practice, e.g. as an inducement or reward for the award or execution of procurement contracts, shall be accepted.

6. This Article is without prejudice to the freedom to define, in conformity with the applicable national legislation, the characteristics of the goods, services or works to be provided, including the freedom to make procurement decisions based on social, environmental and/or sustainability criteria.

7. The Programme Operator shall ensure that records of the awarding and execution of contracts are kept for at least three years from the closure of the programme and provided upon request to the NMFA.

Article 8.17

State aid

The National Focal Point shall ensure that any public support under the Norwegian Financial Mechanism 2021-2028 complies with the procedural and substantive state aid rules applicable at the time when the public support is granted. The National Focal Point shall ensure that the Programme Operator maintains written records of all assessments concerning compliance with state aid rules, in particular decisions to award grants and set grant rates, and provides such records to the NMFA upon request. In no case shall any act or omission by the NMFA be taken as to imply a positive assessment of such compliance.

Chapter 9

Financial management

Article 9.1

Common rules for payments

1. Payments to programmes shall be made when all relevant conditions for payments stipulated in the Programme Agreement and this Regulation have been fulfilled. Extraordinary advance payments in respect of costs related to the preparation of programmes may be approved by the NMFA, in accordance with Article 8.10.8.

2. Payments to programmes shall take the form of advance payments, interim payments and payments of the final balance. Without prejudice to paragraph 3, they shall be made to the designated account of the Beneficiary State. Subject to contrary provisions in national law, the Beneficiary State shall ensure that payments received from the NMFA are made available to the Programme Operator within 15 working days of the receipt of the payment.

3. The NMFA and the National Focal Point may agree to transfer payments directly from the NMFA to the designated account of the Programme Operator. In such cases, the Certifying Authority shall be informed.

4. The NMFA may retain up to 10% of the management cost allocation to the programme. The retained amount shall not be paid until the Final Programme Report has been approved by the NMFA.

5. Payments to programmes shall be calculated by applying the co-financing rate laid down in the Programme Agreement. The principle of pro rata financing shall apply, meaning that the payments of the programme grant from the NMFA shall be matched within one month by payment from the entity or entities responsible for providing the co-financing.

6. Payments of the project grant to the Project Promoters may take the form of advance payments, interim payments and payments of the final balance.

Article 9.2

Advance payments

Advance payments are the part of the programme grant necessary to cover its share of justified estimated programme expenditure until the first interim payment referred to in Article 9.3.1 is due. An advance payment of up to 20% shall be set in the Programme Agreement. The advance payment shall be made when the relevant conditions in the Programme Agreement and this Regulation have been fulfilled.

Article 9.3

Interim reporting, payments and forecast

1. The reporting periods shall be as follows:

- (a) 1 January - 30 June (year n) for actual expenditure and 1 January - 30 June (year n+1) for proposed expenditure; and

5. If an Interim Financial Report is received after its due date but on, or before, the following due date referred to in paragraph 4, the report shall be considered as received on its following due date. Expenditure not reported within twelve months of the end of the reporting period in which it has been declared shall be declared ineligible and cancelled, unless otherwise decided by the NMFA.

6. Interim Financial Reports shall include:

- (a) a statement of actual expenditure during the reporting period preceding the payment date;
- (b) a statement of proposed expenditure for the reporting period immediately following the payment date;
- (c) a justified forecast of likely payment applications from the Beneficiary State, in a format provided by the NMFA; and
- (d) information on progress towards achieving outputs and outcomes, as appropriate.

7. The actual expenditure for the last reporting period shall be reported in the Final Programme Report.

8. When the Interim Financial Report has been provided, the NMFA shall verify that it is in the correct form and that the conditions for payment have been met. If that verification is positive, interim payments shall be transferred no later than on the payment dates referred to in paragraph 3.

9. Interim payments shall in principle consist of the proposed expenditure for the respective reporting period less the expected programme account balance at the start of that period for the proposed expenditure. The NMFA may modify the amount of the interim payment if the proposed expenditures are considered to be unjustified. The NMFA shall provide the National Focal Point, Certifying Authority and the Programme Operator with a justification of the modification without delay.

10. Should verification according to paragraph 8 be negative, the NMFA, the National Focal Point, the Certifying Authority and the Programme Operator shall closely cooperate to remedy the deficiencies. The NMFA may provisionally hold interim payments until such deficiencies have been remedied. When the NMFA, after receiving all necessary information, has positively verified Interim Financial Report, it shall at the first possible payment date or when it deems it necessary following that verification release the payment due, unless the NMFA decides to make use of remedies provided in Chapter 13.

Article 9.4

- (a) on, or before, 10 March for disbursements to be made by 30 April; and

3. Without prejudice to paragraph 7 and subject to budgetary appropriations of Norway, payments from the NMFA shall be made by the following payment dates: 30 April and 15 November. Should a payment date land on a weekend or an EFTA public holiday, the payment shall be made on the next EFTA working day.

4. If an Interim Report for Technical Assistance is received after its due date but on, or before, the following due date

referred to in paragraph 2, the report shall be considered as received on its following due date.

5. Interim Reports for Technical Assistance shall include:

- (a) the amount of the instalment; and
- (b) information on the reports submitted in accordance with points (b) and (c) of Article 8.11.6 as applicable.

6. When the Interim Report for Technical Assistance has been provided, the NMFA shall verify that it is in the correct form and that the conditions for disbursement have been met. If that verification is positive, disbursements shall be made no later than on the payment dates referred to in paragraph 3.

7. Should verification according to paragraph 6 be negative, the NMFA and the National Focal Point shall closely cooperate to remedy the deficiencies. The NMFA may provisionally hold upcoming disbursements until such deficiencies have been remedied. When the NMFA, after receiving all necessary information, has positively verified the Interim Report for Technical Assistance, it shall release the payment due at the first possible payment date or when it deems it necessary following that verification, unless the NMFA decides to make use of remedies provided in Chapter 13.

Article 9.5

Payment of the final balance

1. The final balance is:

- (a) the total reported eligible expenditure of the programme, taking into account any previous reimbursements,

3. The final balance shall be calculated and reported in the financial annex to the Final Programme Report in accordance with guidelines adopted by the NMFA.

4. Any final balance payable to the Programme Operator shall be transferred by the NMFA no later than one month after approval of the Final Programme Report by the NMFA.

5. Any final balance payable to the NMFA shall be reimbursed to the NMFA within the time limit referred to in paragraph 4. Any interest earned on the bank account of the Programme Operator between the date of the Final Programme Report and the reimbursement date shall be included in the reimbursement.

Article 9.6 **Use of the euro**

Programme grants and payments from the NMFA to entities in the Beneficiary State, shall be denominated and carried out in euro. The amounts shall be rounded in accordance with criteria set by the NMFA.

2. Programme Operators in Beneficiary States that have not adopted the euro as their currency on the date of an application for payment shall convert into euro the amounts of expenditure incurred in their national currency. This amount shall be converted into euro using the monthly accounting exchange rate of the European Commission in the month during which the expenditure was paid by the Programme Operator of the programme concerned.

3. When the euro becomes the currency of a Beneficiary State, the conversion procedure set out in paragraph 2 shall continue to apply to all expenditure recorded in the accounts by the Programme Operator before that date.

4. Irrespective of the currency used by a Beneficiary State in the implementation of programmes and projects, including the currency of the project contract, neither Norway nor the NMFA is responsible for losses resulting from exchange rate fluctuations.

Article 9.7 **Interest**

1. The Certifying Authority shall annually as part of the Interim Financial Report referred to in point (b) of Article 9.3.1, and for the calculation of the final balance referred to in Article 9.5.1, declare to the NMFA any interest earned or paid on the following accounts:

(a) accounts held in the Beneficiary State on which funds from the NMFA are kept until they are transferred to the Programme Operators; and

(b) accounts established by the Programme Operator according to point (n) of Article 5.6.1 for funds intended for regranting.

2. Interest earned on the accounts referred to in paragraph 1 shall be regarded as a resource for the NMFA. Interest paid on the account referred to in point (b) of paragraph 1 shall be considered as an eligible expenditure within the budget of the programme management costs.

3. The Certifying Authority shall verify the correctness of the declared interest.

4. Beneficiary States that have not adopted the euro as their currency and use accounts held in the national currency shall convert the interest earned into euros using the average of the monthly accounting exchange rates of the European Commission.

4. Any delay in reimbursement to the NMFA shall give rise to interest on account of late payment, starting on the due date and ending on the date of actual payment.
