- by way of exception from Article 7.3.1(c) of the Regulation, the entire purchase price of equipment will be eligible if the equipment is an integral and necessary component for the implementation of measures that are essential for achieving the outcome of the project.

Indirect costs in projects can be based on a flat rate of 20% of total direct eligible costs in accordance with Article 7.4.1(b) of the Regulation, further to be stipulated in each project contract.

A detailed methodology for establishing the fair apportionment of costs according to the above will be provided by the Programme Operator before opening of call.

In-kind costs are not eligible in projects.

2. Financial parameters

2.1 Minimum and maximum grant amount per project:

The minimum amount of grant assistance applied for in the open call is €170,000; the maximum amount is €897,625.

The grant assistance applied for in the pre-defined project is referred to under Section 6.

2.2 Project grant rate:

Grants from the Programme will not exceed 85% per cent of total eligible project costs. The remaining costs of the project shall be provided or obtained by the Project Promoter.

3. Selection of projects

3.1 Selection procedures:

The selection procedures will mainly follow the procedures provided for in Article 6.5 of the Regulation with the exception that, an additional appeals procedure after the review by the experts is added and the Selection Committee makes a final decision on which projects are supported, which is not subject to review by the Programme Operator.

The Programme Operator shall review the applications for compliance with administrative and eligibility criteria. If at this stage the Programme Operator detects any inconsistencies or obvious errors that can be remedied, the applicant shall be given a short deadline to do so. Applicants whose applications are rejected at this stage have the right to appeal that decision to the Programme Operator. In case of a negative decision of the Programme Operator, that decision can be appealed further to the National Focal Point. In case of a positive decision by the Programme Operator or the National Focal Point the decision will be subject to an appraisal, otherwise the application goes no further.

Each application which meets the administrative and eligibility criteria shall, in accordance with paragraphs 2, 3 and 5 of Article 6.5 of the Regulation, be reviewed by two experts of the National Fund for Environmental Protection and Water Management who are not involved in the implementation of the Programme. The experts who are appointed by the Programme Operator shall have the relevant expertise in the given field. The two experts will separately score the projects according to the selection criteria and in accordance with paragraph 3 of Article 6.5 of the Regulation. In a situation where the difference in scores

given to the application by each of the two experts will be greater than 30% of the higher score, the Programme Operator shall designate an additional third expert for the review. In that case the average score of the two closest scores shall be used for the ranking of the projects.

Applicants are informed of the results of this content-related review of the experts and have the right to appeal their decision to Programme Operator and subsequently to the National Focal Point.

The Programme Operator prepares the ranking list of proposals recommended for funding based on the scores awarded by experts and submits it to the Selection Committee. It shall at the same time provide the FMC with the ranked list in English. Projects submitted to the Selection Committee after the content-related review will include justification along with recommendations for selected proposals. The Selection Committee, after the analysis of the ranking list, may, in justified cases, modify the order of listed projects eligible for support. The justification for such modification should be included in the minutes from the Selection Committee meeting. If this modification results in a project's rejection, the affected applicant shall be informed in writing about the justification for the modification. Apart from the basic list of recommended projects, the Selection Committee may also indicate projects for a reserve list.

The Selection Committee submits the list of recommended projects to the Programme Operator who informs the applicants of the results of the selection process and publicises the results on the Programme website.

3.2 Open calls and availability of funds (including number of calls, duration of calls, and estimated size):

There shall be one open call for applications which shall be launched no later than in the first quarter of 2013 and make available at least €897,625 of the EEA FM grant amount. The call shall be open at least for 2 months.

In case of savings, or an insufficient number of proposals or an insufficient substantive value submitted in the call, the Programme Operator can:

- Conduct a supplementary call or calls. The same rules provided above shall apply *mutatis mutandis* to that/those call/s;
- Make use of applications included in the reserve projects list;
- Reallocate funds in accordance with Article 6.9 of the Regulation. This option is only applicable in the final stages of the programme implementation period and only if conducting a supplementary call or making use of programmes on the reserve list is not feasible due to small savings amounts, lack of time or lack of interest on behalf of the applicants on the reserve list.

3.3 Selection criteria:

The open call and content related criteria will include, amongst other:

- Feasibility;
- Legitimacy;
- Economic efficiency;
- Innovation and planned ecological effect;

For the pre-defined projects on-the-spot monitoring will be performed at least once for each project during the implementation period.

For projects selected through an open call, on-the-spot monitoring will be conducted annually on a sample of projects selected randomly, and on the basis of a risk analysis. The analysis takes into account, among other things, the material and financial progress of a project, the time remaining to project completion, and the correctness of prepared reporting documentation.

As a rule, on-the-spot monitoring at the end of the realisation of the project are performed after the Beneficiary has submitted the last payment claim to the Programme Operator.

On the spot monitoring can also be conducted on an ad-hoc basis when considered necessary.

National Fund for Environmental Protection and Water Management shall be responsible for monitoring and ensuring the punctual transfer of payments as well as the recovering of undue payments. The Ministry of the Environment shall verify summary reports submitted by the National Fund and perform general supervision.

Information on Reporting and Monitoring will further be outlined in the description of the Programme's management and control systems according to article 4.8.2 of the Regulation.
