Each application which meets the administrative and eligibility criteria shall be subject to the content related criteria. An application is reviewed by 4 independent and impartial experts, appointed by, but independent of the Programme Operator and Selection Committee. Two of the experts are health care experts who will evaluate the compliance of the applications with the programme assumptions and adequate legislation on health care. The other two are financial and project management experts evaluating financial feasibility, the management structure and indicators adopted in the applications.

On the basis of the content-related evaluation chart prepared by the Programme Operator and accepted by the Selection Committee the experts (in the given field) will separately score the project according to the selection criteria published with the call for proposals. For the purposes of ranking the projects, the average of the scores awarded by the experts is used. Every expert is obliged to present a short justification of the score. If the difference between the scores given by the two experts in the given field is more than 30% of the higher score, a third expert is commissioned by the Programme Operator to score the project independently. In such cases the average score of the two closest scores shall be used for the ranking of the projects. In relevant cases the applications can be consulted with other experts, regarding, *e.g.*, legal issues. Applicants are informed of the results of this content-related review of the experts and have the right to appeal their decision to the Programme Operator and subsequently to the National Focal Point. The National Focal Point decision is not subject to further appeals.

Under the second step of the procedure the Selection Committee receives a list of the projects, ranked from the highest number of points to the lowest, based on the scoring of the experts. The FMC and NMFA shall at the same time receive the list in English. The Selection Committee consists of 6 members; 3 representatives of the Programme Operator and 3 independent experts. The Committee will act in accordance with the rules elaborated by the Programme Operator. The Committee reviews the list of the ranked projects and has the right to modify it in accordance with the above-mentioned rules. The justification for the modifications is to be mentioned in the minutes of the Committee meeting. The list adopted by the Committee is submitted to the Minister/Deputy Minister of Health for approval. The list approved by the Minister/Deputy Minister is the basis for elaborating the final results of the call published on the Programme Operator's website. The Minister/Deputy Minister will provide applicants either with a decision awarding grant as a basis for signing a project contract or information on the results of the call if the applicant is not to receive financial contribution.

3.2 Open calls and availability of funds (including number of calls, duration of calls, and estimated size):

There shall be one call for applications which shall be launched no later than in the first quarter of 2013 and make available the total grant amount of €46,995,275. The call shall be open at least for 2 months.

In case of an insufficient number of proposals submitted in the call referred to above or in case of proposals with insufficient substantive value, a supplementary call or calls can be conducted.

3.3 Selection criteria:

The selection criteria will include *inter alia* compliance with the objectives and expected outcomes of the programme, measurability of the adopted indicators, significance for the improvement of the health status of the target groups, financial feasibility and efficiency of the management system.

The open call and selection criteria shall furthermore reflect the principles of anti-discrimination and tolerance.

Detailed selection criteria, developed by the Programme Operator and adopted by the Selection Committee, will be submitted to the FMO two weeks before the launch of the open call.

4. Payment flows, verification of payment claims, monitoring and reporting

4.1 Payment flows

Payments towards the Project Promoters will be in the form of advance payments, interim payments, and a final payment to be paid after the approval of a final report.

The advance payment shall be requested by the Project Promoter and cannot be higher than 10% of the total awarded grant amount.

Subsequent payments towards projects will be made based on approved interim financial reports.

The advance shall be offset against incurred expenditure reported in the interim financial reports. The advance is deducted from the reimbursements of incurred expenditure until the total advance payment has been offset.

Payments shall be transferred to the Project Promoter no later than three months from submission of a payment request and no later than one month after its approval.

4.2 Verification of payment claims

Payments to projects are made on the basis of approved project interim/final reports.

Verification and approval of project interim/final reports will be conducted by the Programme Operator.

Verification and approval of project interim reports will be based on information on incurred expenditure, financial status and projects progress contained in the interim reports, and on additional information to be submitted together with the reports.

The Programme Operator may in justifiable cases decide to cancel the requirement of attaching additional documentation.

In case of additional questions, the Programme Operator may ask the Project Promoters for further explanations/clarifications.

In case of verification of expenditure incurred by a donor project partner, a report by an independent and certified auditor, certifying that the claimed costs are incurred in accordance with the Regulation, the national law and accounting practices of the project partner's country, shall be seen as sufficient proof of costs incurred.

The procedure for verification of interim and final reports and deadlines for reporting as outlined in the programme proposal will further be detailed in the description of the Programme Operator's management and control systems according to Article 4.8.2 of the Regulation.

4.3 Monitoring and reporting

Project Promoters shall be required to report on project progress and outputs in interim reports and at the end of the project in a final report. The interim reporting periods shall cover at least four months but can be merged upon the request of the Project Promoter.

Project Promoters shall submit interim reports no later than 10 days after the end of a reporting period.

On-the-spot checks will be conducted every year on a sample of projects selected mainly on the basis of a risk analysis. The analysis takes into account, among others, the material and financial progress of a project, the time remaining to project completion, and the correctness of prepared reporting documentation.

On-the-spot checks can also be conducted on an ad-hoc basis when considered necessary.

On-the-spot checks are carried out by the Programme Operator.

Information on reporting and monitoring will further be outlined in the description of the Programme's management and control systems according to article 4.8.2 of the regulation.

5. Additional mechanisms within the programme

1.5 % of the eligible expenditure of the programme is set aside for a Fund for bilateral relation (the Fund). Under the Fund the Programme Operator plans to implement the following actions:

1. Website to provide assistance for partner search and partnership developments, commissioned by the Programme Operator. Its aim is to support Project Promoters in finding partners through open competitive process. The use of the website by Project Promoters and project partners will be free of charge, including for Project Promoters and partners participating in calls under other relevant programmes, such as PL13 Reducing social inequalities in health. Tentative budget: €37,000.
2. Seminar organized by the Programme Operator for potential and actual Project Promoters and partners from the Donor States to search for project partners, develop partnerships and exchange experiences. The participants will be chosen by open call procedures for potential and actual Project Promoters. Tentative budget: €130,000.
3. An international thematic conference, which will be held in 2014 in cooperation between the health authorities in Poland and Norway and the World Health Organization. The Donor States and FMO will be consulted in the preparations.
4. The remaining part of the Fund will be made available through open calls for potential and actual Project Promoters to facilitate the development of partnerships,

as well as networking, exchange, sharing and transfer of knowledge, technology, experience and best practices between project promoters and entities in donor states. The first call will be held together with the open call for project grants. The balance of the fund will be announced each year as an open call for proposals for the dedicated amount. Funding will be available for study visits, conferences, seminars, workshops etc. Tentative budget for point 3 and 4: €750,647.

The Programme Operator shall discuss the seminars it intends to organise as well as the selection procedures and criteria for the open calls with relevant donor state entities, such as the Norwegian Directorate of Health, acting as donor programme partner in PL13 Reducing social inequalities in health.

The calls will be announced each year as an open call for proposals for a dedicated amount.

Grants from the fund for bilateral relations will be up to 90% (NGOs) and 85% (other Project Promoters) of the total eligible costs of these actions and will not exceed €46,500. Applications can be submitted by Polish public and private bodies as well as non-governmental organisations constituted as legal entities and operating in the public interest. Costs incurred by partners from the Donor States are eligible, but reimbursement requests may only be submitted through the Polish Project Promoters. Eligible costs are described in Article. 7.7 of the Regulation.

Applications will be assessed by the Programme Operator according to formal and content-related criteria. The Programme Operator will assess whether the activities planned by the applicant are in line with Article 3.6 of the Regulations as well as the Guideline for strengthened bilateral relations for EEA and Norway Grants 2009-2014. Additionally, each application will be assessed with regard to the expected result when it comes to strengthened bilateral relations.
