- 4) secretary – appointed by the chairman – Director or Deputy Director of the Department for International Cooperation and European Funds at the Ministry of Interior.

The assessment of project proposals will be conducted by the experts of the Department for International Cooperation and European Funds (Programme Operator).

After the applicants have submitted their applications, the Programme Operator shall review the applications for compliance with administrative and eligibility criteria. If at this stage the Programme Operator detects any inconsistencies or obvious errors that can be remedied, the applicant shall be given through written procedure a short deadline to do so. Applicants whose applications are rejected at this stage have the right to appeal that decision to the Programme Operator. In case of a negative decision of the Programme Operator, that decision can be appealed further to the National Focal Point. In case of a positive decision by the Programme Operator or the National Focal Point the decision will be subject to an appraisal, otherwise the application goes no further.

Content-related verification of project proposals shall be conducted in evaluation teams consisting of two experts. Each expert delegated to take part in the verification is obliged to sign an impartiality statement in order to ensure no conflict of interest. The experts shall separately score the project according to the selection criteria published with the call for proposals. For the purposes of ranking the projects, the average of the scores awarded by the experts shall be used.

In case the difference between the scores given by the two experts is more than 30% of the higher score, the Programme Operator appoints a third expert to score the project independently. In such cases the average score of the two closest scores shall be used for the ranking of the projects.

The results of the assessment are presented to the Project Selection Committee – the Team - in a form of a ranking list. The complete ranked list shall at the same time be presented to the NMFA in English. The Team makes the recommendation on the project proposals which are to be awarded a grant. Projects, which do not receive financing due to insufficient funds, but which have met all the necessary criteria are placed on a reserve list. The recommendation of the Team is final and is not subject to an appeal. The NMFA has an observer status in the meetings of the Team.

After the recommendation the Programme Operator publishes the results and signs agreements with the selected Project Promoters.

3.2 Open calls and availability of funds (including number of calls, duration of calls, and estimated size):

There shall be one call for proposals which shall be launched no later than in the third quarter of 2013 and make available at least €8,053,751. The call shall be open at least for 2 months.

In case there are funds uncommitted as a result of this call the Programme Operator may conduct a supplementary call or calls. The same rules provided above shall apply *mutatis mutandis* to that/those call/s.

3.3 Selection criteria:

The project proposals shall be evaluated with special attention drawn to the issues of compliance with outcomes and outputs of the Programme as well as a cost-benefit analysis, feasibility and risk assessment, administrative abilities of the applicant etc. The call will give priority to projects focusing measures other than infrastructure investments or equipment purchases. This will be reflected in the selection criteria and the open call text. A detailed list of selection criteria will be communicated to the applicants in a call for proposals by providing evaluation sheets used for the verification process. This list shall be submitted to the FMO before the deadline provided in Article 6.3.4 of the Regulation.

4. Payment flows, verification of payment claims, monitoring and reporting

4.1 Payment flows

Payments towards projects are made on the basis of approved project interim/final reports.

For public entities the payment flows will be based on the Polish public finance law meaning that project promoters from the public sector will be pre-financed by state budgetary resources.

For other entities payment flows are in the form of advance payments, interim payments on the basis of already incurred expenditure, and a final payment to be paid after the approval of a final report.

4.2 Verification of payment claims

Interim payments to projects are made on the basis of approved project interim/final reports.

Verification and approval of project interim reports will be based on information on incurred expenditure, financial status and projects progress contained in the interim reports, and on additional information to be submitted together with the reports.

In case of verification of expenditure incurred by a donor project partner, a report by an independent and certified auditor, certifying that the claimed costs are incurred in accordance with the Regulation, the national law and accounting practices of the project partner's country, shall be seen as sufficient proof of costs incurred when requested. This rule only applies to donor project partners cf. Article 7.13.5 of the Regulation.

The procedure for verification of payment claims, periodicity of reporting periods, and deadlines for reporting will further be outlined in the description of the Programmes management and control systems according to article 4.8.2 of the Regulation.

Project Promoters shall be required to report on project financial progress and outputs in interim reports, and at the end of the project in a final report. The frequency of interim reporting to the Programme Operator shall be based on an agreed timetable, but no less than three times a year.

For all projects, on-the-spot monitoring will be performed at least once for each project during the implementation period. The monitoring shall take into account, among other things, the material and financial progress of a project, the time remaining to project completion, and the correctness of prepared reporting documentation. The result of the monitoring shall be recorded in a report.

On-the-spot monitoring can also be conducted on an ad-hoc basis when considered necessary.

Information on Reporting and Monitoring will further be outlined in the description of the Programme's management and control systems according to article 4.8.2 of the regulation.
