Such contributions shall not amount to more than 50% of the co-financing provided by Project Promoters. The basis for the calculation of the unit prices for voluntary work required by Article 5.4.5 of the Regulation will be official data on minimum and average salary in the economy at national level, as established by the National Commission for Prognosis, in force when the call for proposal is launched. Depending on the type of work, two different levels of prices shall be used:

- In the case of administrative work/unskilled labour, the gross minimum wage in the economy at national level (including the required social security contributions required by the national legislation) will be taken into consideration;
- In the case of complex/specialised work, the gross average wage in the economy at national level (including the required social security contributions required by the national legislation) will be taken into consideration.

This exception is not applicable to projects implemented under the Small Grant Scheme.

Indirect eligible costs can be claimed by the application of a flat rate of up to 20% of total eligible direct costs. All Project Promoters or project partners must apply the methodology established by the Programme Operator when setting the precise level of this flat rate.
