Operational rules (Annex II)

1. Programme summary

This Annex sets out the operational rules for the programme. The programme agreement is based on the MoU, the concept note and comments made by the FMC. Commitments, statements and guarantees, explicit as well as implicit, made in the concept note, are binding for the National Focal Point and the Programme Operator unless otherwise explicitly stipulated in the annexes to this programme agreement.

The Programme Operator is the Romanian Ministry of Health. The Norwegian Institute of Public Health (FHI) and the Norwegian Health Directorate (HDIR) are the Donor Programme Partners (DPPs).

The programme objective ‘improved prevention and reduced inequalities in health’, will be achieved through two outcomes:

The programme shall support the outcome ‘policies and services for the prevention of diseases improved’ (Outcome 1) by way of four pre-defined projects (PDPs) and a Small Grant Scheme (SGS).

The first PDP under Outcome 1, entitled ‘Strengthening the National Network of Primary Health Care Providers to improve the Health Status of the Population, children and adults (including vulnerable population)’ (PDP No 1), shall focus on prevention through primary care and community care by way of improving existing community centres and community care networks and strengthening evidence based policy at all levels of healthcare including evaluation of population health needs, development of a feasibility study for causes of death registry. The project builds on the results of the Roma health mediator project supported by the RO19 programme under the Norwegian Financial Mechanism 2009-2014.

The second PDP under Outcome 1, entitled ‘Strengthening at National level the capacity of the Romanian Health Sector to implement Organized Screening for Cancers amenable to cost-effective early detection interventions - CEDICROM 2’ (PDP No 2) shall improve the quality assurance of integrated preventive and curative medical services related to cervical cancer prevention among disadvantaged population at risk living in communities in remote areas. The project builds on the results of the „CEDICROM 1” project supported by the RO19 programme under the Norwegian Financial Mechanism 2009-2014.

The third PDP under Outcome 1, entitled ‘Development of a single healthcare professional registry’ (PDP No 3) shall improve the human resources management in the Romanian health sector by introducing a single, centralised and standardised registry of data on health professionals.

The fourth PDP under Outcome 1, entitled ‘Creating a registry to track left ventricular remodelling as a result of acute myocardial infarction in order to prevent heart failure’ (PDP No 4) will create a risk model to identify the predictors of heart failure development in long-term acute myocardial infarction survivors as well as creating a cardiac insufficiency registry based on the Norwegian Registry in cardiovascular diseases.

The SGS under Outcome 1 (SGS No 1) will support local authority initiatives to replicate the model of good practice for community healthcare and integrated community centres. The model shall be developed under PDP No 1. The SGS No 1 will be launched only after the development of the aforementioned model.

The programme shall support the outcome ‘Access to health care services for vulnerable groups improved ’ (Outcome 2) by way of four pre-defined projects, one call for project proposals and one SGS.
The first PDP under Outcome 2, entitled ‘Strengthening the TB control in Romania through the implementation of the WHO END TB Strategy 2016-2020’ (PDP No 5) shall focus on strengthening the TB control and surveillance system and network in Romania. It shall decrease the hospitalization period, involving family doctors in TB diagnostic and monitoring and improving the diagnostic and treatment results through universal access to rapid diagnostic and complete and correct treatment regimes. The project builds on the results of the TB-project supported by the RO19 programme under the Norwegian Financial Mechanism 2009-2014.

The second PDP under Outcome 2, entitled ‘Increased performance regarding diagnosis and treatment of children’s cancer by improving technical equipment, purchase of devices, medical personnel training and development of guidelines’ (PDP No 6) shall focus on the improved diagnosis and treatment of children’s cancer through the acquisition of equipment, training programmes for health professionals in using the equipment and improving their diagnostic and therapeutic skills as well as developing and implementing guidelines for diagnosis and treatment in paediatric oncology according to European standards.

The third PDP under Outcome 2, entitled ‘Support for the development of Community Mental Services for children and adolescents’ (PDP No 7) will carry out a National survey on the incidence of mental health disorders among children and adolescents; early intervention measures through training and awareness raising of families and professionals; and diagnostic services and treatment for children who are at risk.

The fourth PDP under Outcome 2, entitled ‘Strengthening the capacity to address antimicrobial resistance (AMR) and healthcare associated infections (HAI) in Romania’ (PDP No 8) will develop a National Action Plan to combat AMR and HAI and elaborate standards and protocols, AMR testing, HAI surveillance and antibiotic stewardship in selected hospitals, as well as professional guidelines, training and capacity-building for health professionals.

The call for project proposals under Outcome 2 will support measures for improving access to healthcare for vulnerable groups, including Roma, with a focus on awareness raising, capacity-building and educational campaigns.

The SGS under Outcome 2 (SGS No 2) targets NGOs to provide outreach services to remote and vulnerable populations, such as Roma, in order to complement the interventions made under the PDPs and the call for project proposals.

4.2 Selection procedures:
The selection and scoring criteria for SGS No 1 shall give priority to projects implemented in partnership with NGOs.

The project evaluation and award of grants shall be in accordance with Article 7.4 of the Regulation. The Programme Operator shall assess applications received for compliance with the administrative and eligibility criteria. Applicants whose applications are rejected at this stage shall be notified and given ten working days from the date of notification to appeal that decision.

All applications that pass the administrative and eligibility verification shall be subject to a technical and financial evaluation by external (to the Programme Operator) and independent experts contracted by the Programme Operator. Each application shall be scored by three experts, against the selection criteria announced with the call for proposals/SGS. The experts shall separately score the applications on the basis of the documents provided in the applications. For the purpose of ranking the projects, the average of the scores awarded by the experts shall be used. The result of the experts’ evaluation shall be a ranking list that forms the basis of the Selection Committee’s (SC) discussion.

The SC shall consist of three voting members. Two members shall represent the Programme Operator and one member shall be external to the PO. The representative(s) of the FMC, the DPPs, the FMO and the NFP shall be invited to participate in the SC as observers. The SC shall recommend the projects to be funded and may modify the ranking of the projects in justified cases. The justification for the modifications shall be detailed in the minutes of the meetings and all affected applicants shall be informed in writing about the justification for the modification.

Grants shall be awarded by the Programme Operator to projects on the basis of the ranking list (including reserve list) approved by the Selection Committee. The list with the selected projects will be published on the Programme Operator’s website.

4.3 Project grant rate:
Grants from the programme may be up to 100% of total eligible expenditure of the project. In the case of projects where the Project Promoter is an NGO or a social partner, as defined in Article 1.6 of the Regulation, the project grant rate may be up to 90% of eligible expenditure of the project. The project grant rate shall in all cases be set at a level that complies with the State Aid rules in force and takes into account any and all other forms of public support granted to projects. Any remaining costs of the project shall be provided or obtained by the Project Promoter.

5. Additional mechanisms within the Programme
