The Programme Operator is the Executive Agency for Higher Education, Research, Development and Innovation Funding (UEFISCDI). The Research Council of Norway (RCN) and the Icelandic Centre for Research (RANNIS) are the Donor Programme Partners (DPPs).

The programme shall support the outcome "enhanced performance of Romanian research internationally," by way of two calls for proposals and one small grant scheme (SGS).

One call for proposals shall be launched under the EEA Financial Mechanism 2014-2021 and a separate call for proposals shall be launched under the Norwegian Financial Mechanism 2014-2021.

The following shall apply to both calls for proposals:

- Research projects within each of the following thematic areas shall receive grants: energy; environment; health; social sciences and humanities, including gender studies and social inclusion studies; ICT; biotechnology.

In accordance with the Guideline for Research Programmes, the programme shall follow the principles and practice of the European framework programmes (i.e. Horizon 2020 and to Horizon Europe) and the international best practice for research and innovation. The programme will pay particular attention to the implementation of principles and provisions on Open Science.

Applications under each thematic area shall fall within one or more of the following key topics:

A. Energy:

1. Innovative materials and technologies for energy storage;

2. Energy efficiency within the process of generation, transmission, smart grids distribution and at the consumer/end user;

3. Eco-friendly environmental technologies for energy production/generation;

4. Energy sources - diversification/balance;

5. Carbon capture and storage (mandatory key topic under the Norwegian Financial Mechanism call for proposals for research projects. The Programme Operator may, further to a recommendation of the Programme Committee, include this key topic within the EEA Financial Mechanism call for proposals for research projects).

B. Environment:

According to the Research Council of Norway's procedure for ‘Payroll and indirect costs’, the Norwegian entities classified as ‘Research Institutes’ calculate the payroll and indirect costs together, as hourly rates for the staff participating in a project. The RCN will facilitate the verification of conformity of standard scales of unit costs used by the project participants.

a) Scientific and/or technical excellence;

b) Relevance in relation to the objective and priorities of the research programme;

c) Quality and efficiency of the implementation and management, including quality and implementation capacity of the applicants and contribution to capacity and competence building;

d) The potential impact through the development, dissemination and use of project results.

Project applications submitted under thematic area ‘Energy’, key topic ‘Carbon capture and storage’ shall be prioritised under the Norwegian Financial Mechanism call for proposals for research projects.
The selection criteria and the procedure for the award of grants in respect of applications submitted under the thematic area ‘Health’ and the thematic area ‘Social Sciences and humanities, including gender studies and social inclusion studies’ shall be designed so as to ensure that no less than 10% of the eligible expenditure of the programme is dedicated to projects falling within the key topic ‘Roma inclusion and empowerment.’

Applications submitted under the Small Grant Scheme shall be assessed as follows:

The selection process will be based on the potential of the applicant in reworking and resubmitting an improved ERC application. The ERC application and the ERC evaluation of the application will make up the core of the application, accompanied by motivation letter and an acceptance letter of the ERC grantee institution submitted by the applicant.

The selection process consists of:

(2) Quality appraisal of the application by the Programme Committee. Each application that passed the eligibility check shall be reviewed by the Programme Committee. The Programme Committee shall assess each proposal on the basis of the candidate’s scientific performance, and his or her potential to improve the subsequent ERC application, and the candidate’s institution’s proposal to promote information about the ERC application process in order to increase the number of applicants from Romania. A final list consisting of projects recommended for funding within the available budget of the SGS call, will be drawn up by the Programme Committee.

(3) Final decision on the award of grants by the Programme Operator. The Programme Operator shall make the final decision on the basis of the final list of applications recommended for funding by the Programme Committee.
